

Concrete Hopper

Concrete Hoppers - This particular accessory is a self-dumping hopper that automatically starts to unload as bumper release contacts the side of a dumpster. After dumping is completed, the hopper returns to an upright and locked position. This piece of equipment even comes with a cable which allows operation from the seat of the forklift so as to have the choice of manually dumping the hopper. There is a locking chain provided to lock the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish to maintain durability.
